

RITE•HITE

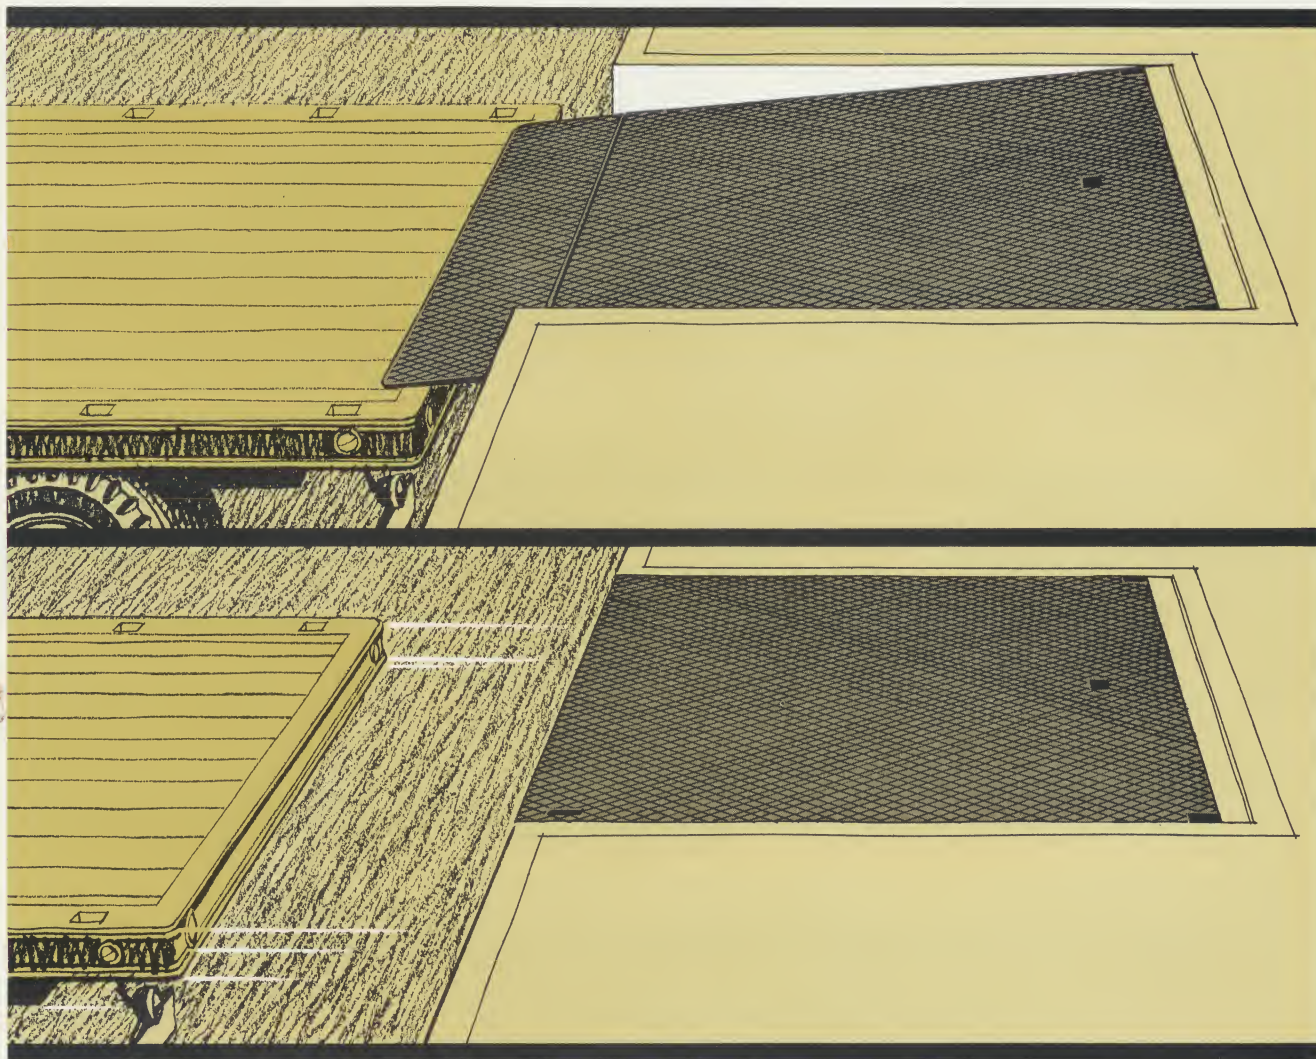

IS THE ONLY DOCK LEVELER

EXCLUSIVE

**RITE
HITE**

FEATURE

19b
TE

THAT RETURNS TO DOCK LEVEL

AUTOMATICALLY!

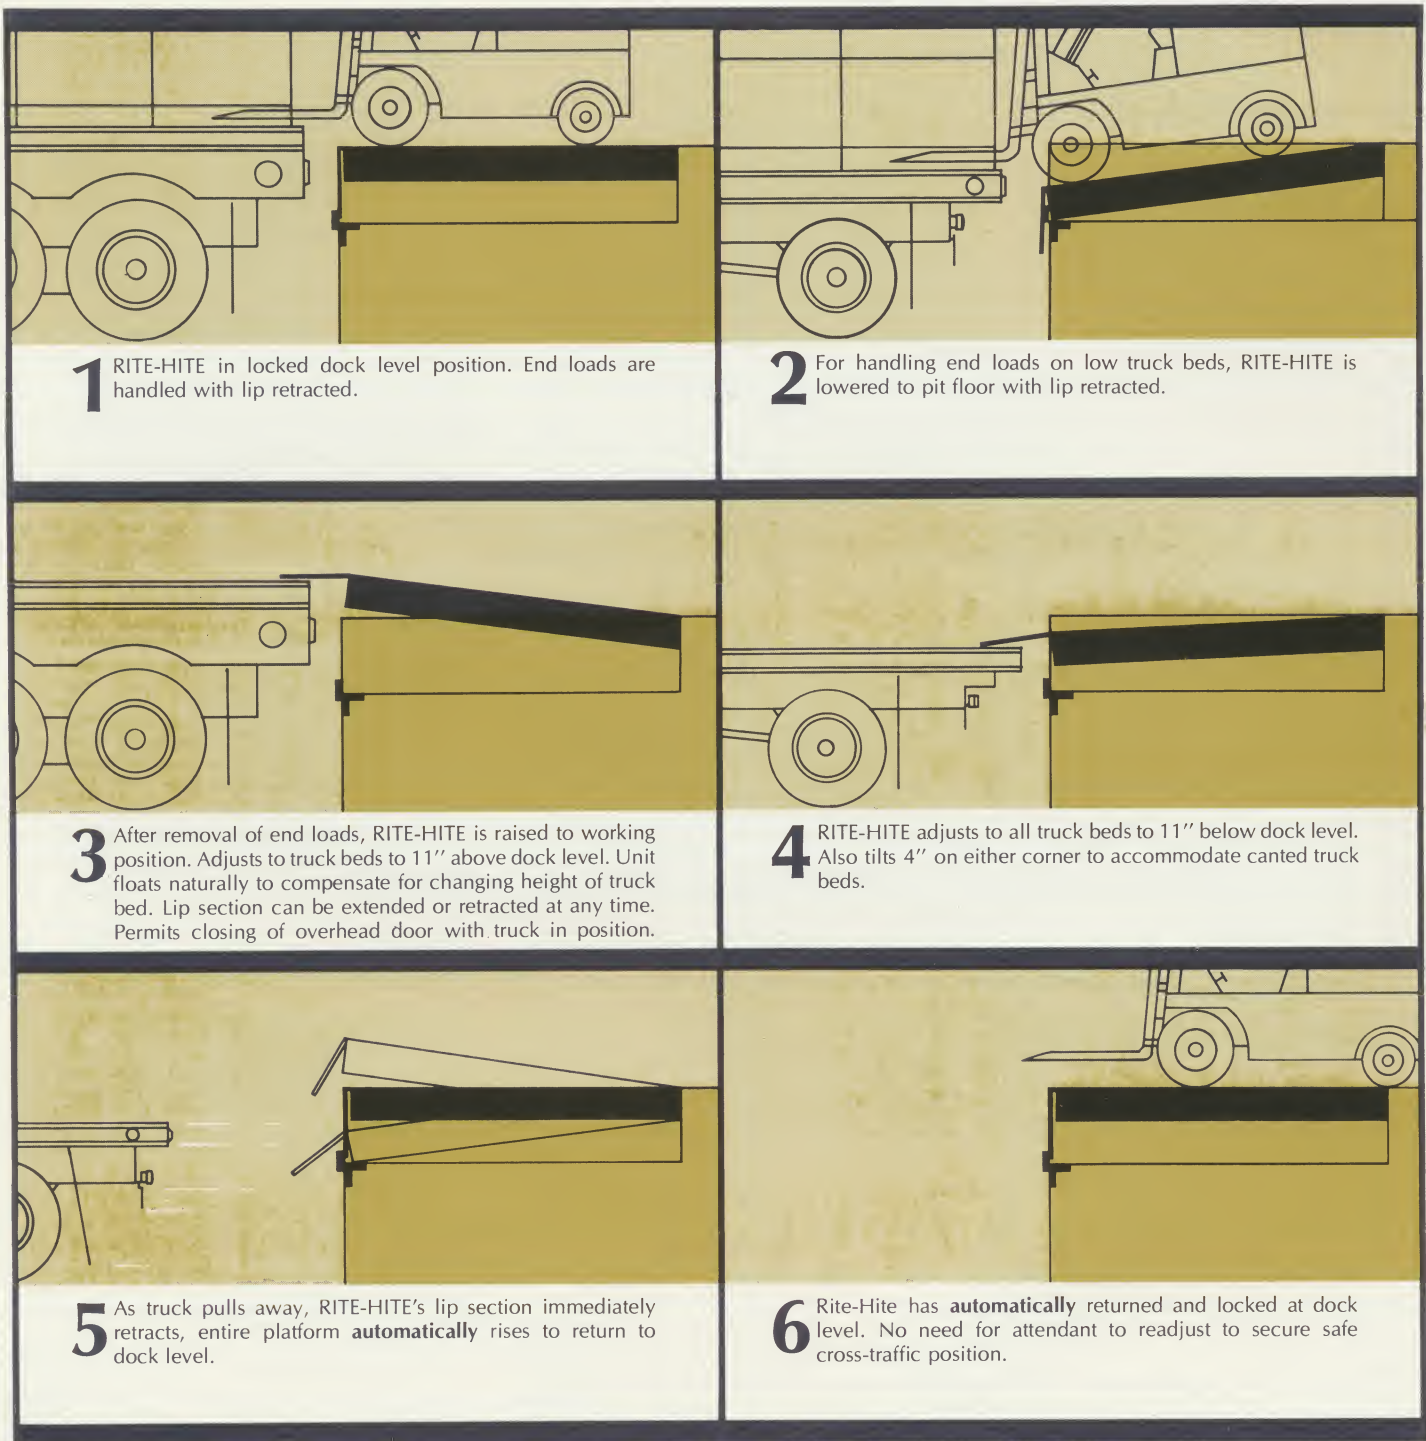

- Entire platform returns and locks...the instant truck pulls away.
- Complete safety for personnel, equipment and cargo.
- No depressions left in floor. No cross-traffic hazards.
- Only RITE-HITE offers this feature.
- Conforms with U.S. Government Standard CS202.

UNCONDITIONALLY GUARANTEED

Manufactured by the originator and pioneer of counterbalanced dock levelers. RITE-HITE Quality thru craftsmanship since 1934.

RITE•HITE IS THE ONLY DOCK LEVELER THAT IS FULLY CONTROLLED BY THE DOCKMAN!

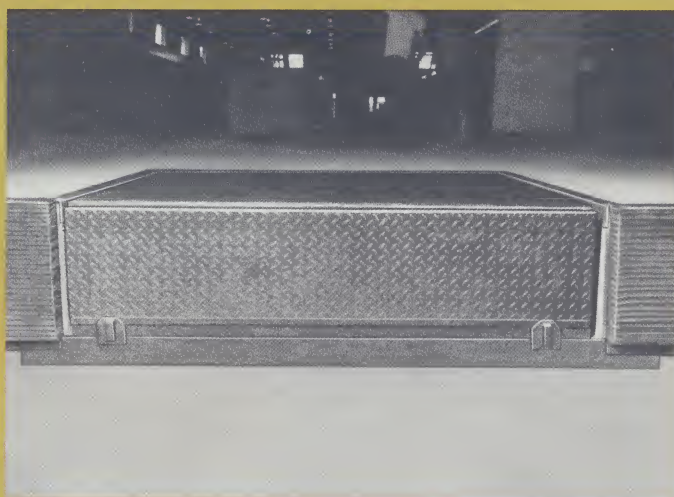

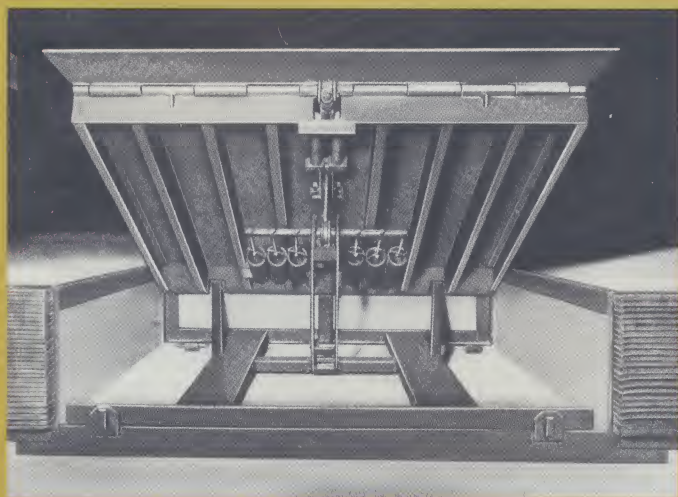

NO LEGS, POSTS, RATCHETS, ETC.

NO QUESTIONABLE SEMI-SUPPORT SYSTEMS REQUIRED...BECAUSE
ONLY RITE-HITE RETURNS **AUTOMATICALLY**.

ONLY RITE•HITE

USES GRAVITY AS ITS PRIMARY POWER SOURCE!
INDUSTRY'S SIMPLEST DESIGN!

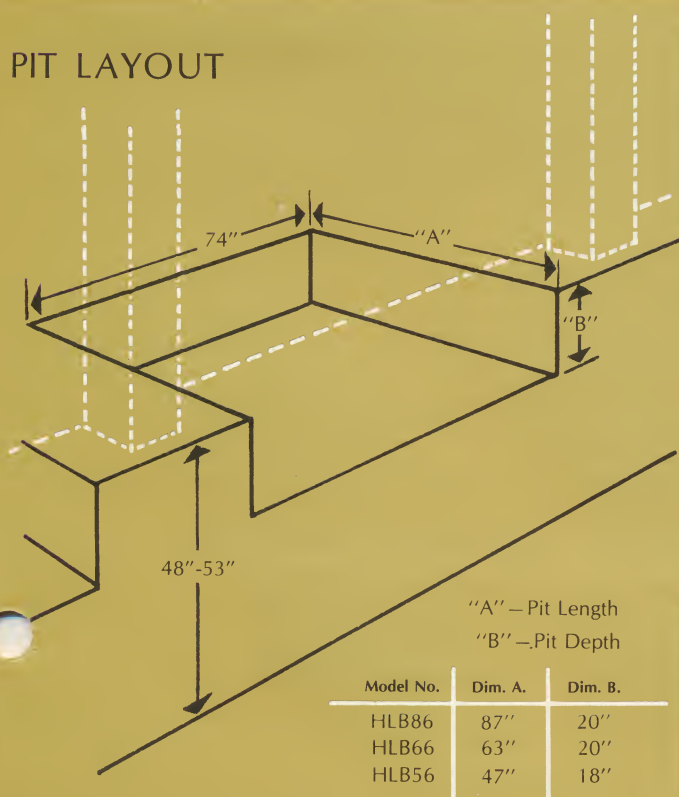

RITE-HITE's gravity controlled design is the most important advance in dock levelers since the introduction of counterbalance. Unlike all other hinge-lip levelers, RITE-HITE's counterbalance system works **with** the weight of the platform, not against it. With all forces working in unity, this engineering concept permits an unusually smooth, trouble free system. Full utilization of gravity eliminates violent action and result-

ant wear and tear. Because the system is not solely dependent upon precise spring pressure, an exceptionally high degree of reliability is achieved. Also, it permits the elimination of pull rings, cables, hold-down systems, auxiliary spring loads, etc., which have been the source of maintenance and down time in other units.

NOTE: Unit shown in extreme high position with toe guards removed.

PIT LAYOUT

ARCHITECTURAL SPECIFICATIONS

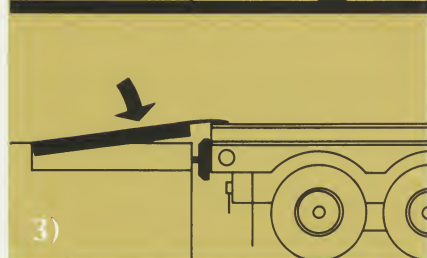

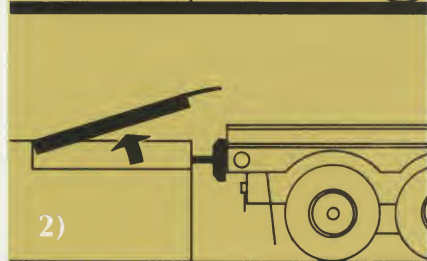

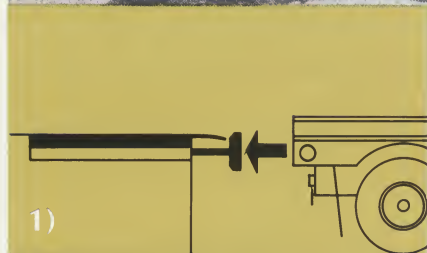

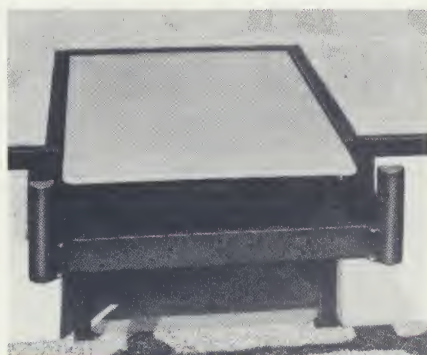

(Short Form)

Adjustable Dock levelers to be 8', 6' or 5' long x 6' wide, 20,000 lb. capacity, equipped with 16" long hinged lip. To be fully mechanical spring counterbalanced type biased downward when in working position. No pull rings, cables, hold down brakes, hydraulics or air mechanisms. Platform to automatically return and lock at dock level after trucks pull out. Two dock bumpers furnished per unit. Leveler to be completely assembled and tested before shipment. Fully welded installation. No bolts. To be Rite-Hite Model HLB86' (8' L x 6' W) HLB66 (6' L x 6' W) or HLB56 (5' L x 6' W).

NOTE: Optional weather-seal available when installed beneath overhead doors.

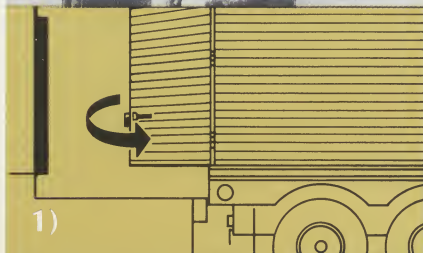

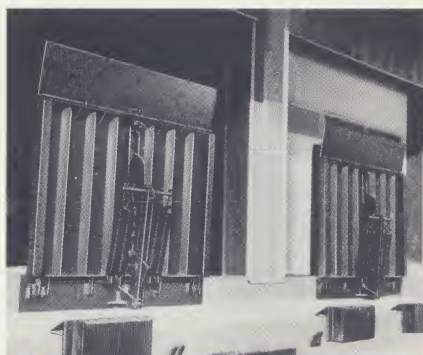

Before construction write for certified kit drawings.

RITE-HITE BUILDS A DOCK LEVELER FOR EVERY APPLICATION

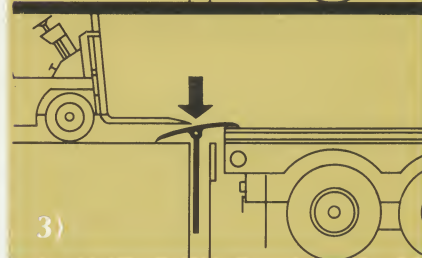

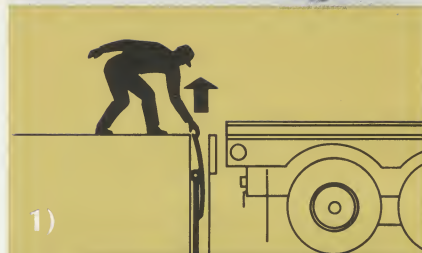

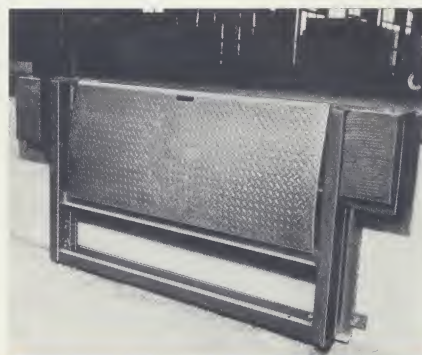

TRUCK-ACTUATED RITE-HITE

Fully automatic. 1) Truck backs in. 2) Leveler-bumper assembly retracts, platform raises. 3) Platform lowers to truck bed automatically. Returns to dock level automatically when truck pulls out.

VERTICAL STEP-DOWN RITE-HITE

1) Trailer doors can open and close at dock. Adjustable lip extends as platform raises. Operator never handles lip, never stands in front of ramp. 2) Lip release permits adjusting lip section in or out of truck bed at any time without manual effort. 3) Lip automatically retracts as trailer pulls away.

NEW RITE-HITE RAPID RAMP

Mounts to existing dock wall. No concrete work required. 1) Raises with light pull. 2) Settles in position. 3) Returns to protected position automatically as truck pulls out.
